Year 3 Newsletter

Topic

We have started our new topic which is all about plants. This week we are looking at how we use different lines to create pictures. We have all created our own line drawings of a daffodil and have then labelled the main parts of the plant.

Key Info

Payments and Consents for the trip to Bewilderwood must be done via ParentMail/MyEd.

New Books

Over the last few weeks hundreds of new books have appeared in our class libraries. Each class had input on what they wanted. The children have really enjoyed getting their heads into them- most popular at the moment is Captain Underpants!

English

Children have started a new story (We have excellent story writers in Year 3). This story is all about a bee who has to go to a flower to get the nectar. These stories are supposed to be comical. We are currently at the planning stage after having analysed what a good story looks like.

Can you spare...?

As part of our plant topic we are hoping to grow potatoes. Then during our World War 2 topic we would like to harvest them and turn them into mash. We have all we need except for compost. If anyone has any compost (in bags) that they would like to donate we would be incredibly grateful. Here is a picture of shoots coming from our potatoes.
