

YEAR FOUR

This week...

We started our week with a celebration of National Science Day and our Science Café. Children and parents all seemed to enjoy learning about how science is involved in everything we do and then doing some practical investigations.

We have also begun working on our persuasive writing skills with the aim of persuading someone to use less single use plastic. We have also continued to work on fractions in maths.

Last week...

We had a busy week as we finished off our metaphor poems about rain, started looking at proper and mixed fractions in maths, learned about body parts in French and discussed tempo, texture and pitch of different famous pieces of music. We also did a very exciting practical experiment to see if all solids melt at the same Temperature (we found that they don't!)

Next Week ...

We will be doing more persuasive writing and fractions based maths as well as more music appreciation and internet safety skills in RSHE and Lifeskills. We will also be doing our second piece of artwork in topic. This time based on the work of the artist Monet.

Please note:

Due to the wet weather it important that children bring a change of shoes if they want to play on the school field.

Babbage and Seacole - Swimming. Please ensure that swimwear and a named towel in a bag is brought to school in the morning.

Homework Each Week

The following **must** be completed each week:

1. **Minimum of 2 x 10/15min** sessions on TT Rockstars/ Numbots
2. **Minimum of 2 x 10/15 min** sessions on Spelling Shed
