

# YEAR SIX

Over the past two weeks, Year 6 have been studying William Shakespeare's 'Macbeth' as part of our Topic and English units. We dived into the minds of the main characters to write two diary entries from Macbeth himself, focusing on their intentions at different stages in the play and their change in character as the plot unfolds. The writing produced as been most impressive!

We also had fun writing modern-day 'tweets' about the treason that had been committed in Macbeth's castle.

## Light

Throughout our Topic 'Macbeth', we will be learning all about light as our Science focus. We will study the eye and how light travels, impacting how and what we see. In true scientist mode, we will plan and carry out a scientific investigation involving light.

During our Art lessons, we will be exploring the dimensions of the face in order to draw portraits of Macbeth using graphite pencils, pen and ink — or maybe even a quill! We look forward to sharing their art work with you.

## Mock SATS Week

Next week, we will be holding our annual 'Mock SATS week' for Year 6. This will be conducted in exactly the same way, following the same time-table (stipulated by the Government) as the real SATS which will be held later in May. We hold this so that it prepares the students and hopefully eases any worries that they may have.

## Homework Days

### Set and due on FRIDAY:

- ◆ Maths
- ◆ English - Comprehension
- ◆ English - Grammar

### Additional:

- ◆ Spellings using EdShed to practise
- ◆ Reading (at least 3x per week)
- ◆ TT Rockstars

## Dates for the diary:

- ◆ Mock SATS week w/c 6th March (Tues—Fri)

## UPCOMING:

- ◆ Crucial Crew Trip - Thursday 9th March
- ◆ Science Café - Monday 13th March
- ◆ 'Fill-a-Jar' Class Challenge — more to follow
