

YEAR FOUR

Maths

We have been learning all about converting improper fractions to mixed numbers and vice versa. We have been using representations and our times table knowledge to practise.

Times tables: Children have been learning two facts a week in our Mastering Number programme. We practise them by saying: "factor, factor, product," so "5, 5s, 25s," if you would like to practise some at home!

Topic

In topic we have researched pyramids and learnt what was inside and a little bit about how they were built!

This week, we have been learning about the discovery of Tutankhamun's tomb. It was found by accident and they found over 5000 objects! We wrote newspaper reports about the find as if we were there!

Safer Internet day!

Thursday was safer internet day across the globe! We learnt about how to spot a scam.

- S** If something **seems to good to be true.**
- C** If someone **contacts you, when you weren't expecting it, like in a message or email.**
- A** If someone or something **asks for your personal information.**
- M** If someone asks for **money or to trade with you.**

English

In English, we have been researching and writing non-chronological reports about what we have learn both in English and Topic.
