

YEAR FOUR

Maths

After completing a big unit on fractions this half term, we have moved to learning all about decimals and fraction and decimal equivalents.

English

The children created fantastic poems inspired by the river and have just started writing a persuasive piece on the need to stop using single use plastic.

Topic

We have been learning about the Water Cycle, including the water cleaning process, how we use water and how to save water.

We have also made some nature art inspired by Artist Andy

Water Cycle Work- shop

Year 4 enjoyed a great session with One Day Creative to kick start their learning all about the Water Cycle.

Here are a few photo's from Malorie's session:
